

Cherry Angiela Ishizuka

Web developer and designer building brochure websites for small businesses, and the care that keeps them running.

Fukuoka, Japan Remote, open to international clients behance.net/imangie

SUMMARY

I come from a graphic design background and I am leading the redesign of a staffing company's bilingual website, from layout and visuals to code and deployment, while looking after its systems. Studying BS Information Technology (Software Development). Available for remote work with international clients.

- EXPERIENCE

Website Redesign, HR And System Administration

2024 - Present

So-M-Work Co., Ltd. · Staffing agency, Fukuoka, Japan

React (Vite) · PHP · MySQL · Shared hosting · Redesign in progress

- Leading the full redesign of the company's English and Japanese website, mobile-first for job seekers: my own layout and visuals, about 20 pages, a contact form, and deployment through a staging directory.
 - Built a login-protected admin dashboard to replace the old CMS. Reviewed 14 legacy functions and carried forward the 7 still in use.
 - Design job ads and recruitment visuals for the company's social media.
 - Keep the website, servers and office IT running, with security tasks and documentation.
 - Manage HR administration for dispatched staff and coordinate with Japanese client companies, in Japanese.

Freelance Graphic Designer

2017 - 2019

International clients

- Designed visual assets for esports and gaming communities, plus ads, menus and social media graphics, delivered on deadline.

Design Director

1 year

The Digital Fort · Student publication, Mapúa Malayan Digital College

- Led visual direction, layouts and branding consistency, and coordinated with writers and editors to meet publishing deadlines.

Earlier Roles

2020 - 2024

Logistics operations, Nippon Express (2023 – 2024) · Food manufacturing line, Port Delicat Okatsu (2020 – 2023) · Japan
